ANALYTICA CHIMICA ACTA, VOL. 264 (1992)

AUTHOR INDEX

Agudo, M.
—, Ríos, A. and Valcárcel, M.
Automatic calibration and dilution in unsegmented flow systems 265
Ali, A.H.
— and Winefordner, J.D.
Microsample introduction by tungsten filament electrode into capacitively coupled microwave plasma for atomic emission spectroscopy: analytical figures of merit 327
— and Winefordner, J.D.
Microsample introduction by tungsten filament electrode into capacitively coupled microwave plasma for atomic emission spectroscopy: diagnostics 319

Barbosa, J.
—, Barrón, D., Bosch, E. and Rosés, M.
Standardization of potentiometric sensors in tetrahydrofuran 229
Barnett, N.W., see Williams, T. 297
Barrón, D., see Barbosa, J. 229
Benmakroha, F., see Boufenar, R. 31
Bermejo-Barrera, A., see Yebra-Biurrun, M.C. 53
Bermejo-Barrera, M.P., see Yebra-Biurrun, M.C. 53
Biancardi, A., see Pramauro, E. 303
Blanco González, E., see López García, A. 241
Bontempelli, G., see Schiavon, G. 221
Bosch, E., see Barbosa, J. 229
Boudjerda, T., see Boufenar, R. 31
Boufenar, R.
—, Boudjerda, T., Benmakroha, F., Djerboua, F. and McCallum, J.J.
Anaesthetic gas monitoring and control using coated piezoelectric crystals 31
Bramanti, E., see Scarano, G. 153
Branica, M., see Mikac, N. 249
Brooks, D.S.
— and Flatt, J.R.
Copper, iron and sodium interferences in the determination of gold by atomic absorption spectrometry with particular reference to cyanide solutions 107
Bystryak, S.M., see Mekler, V.M. 359

Cacho, J.
—, Ferreira, V. and Fernández, P.
Microextraction by demixing for the determination of volatile compounds in aqueous solutions 311
Cardeal, Z.L.
—, Hamon, M. et Pradeau, D.
Mise au point d'un procédé d'étalonnage du dosage de l'oxyde d'éthylène 365
Casas, I., see De Pablo, J. 115
Chen, Y.C., see Hsu, C.S. 79
Chin, K.Y.
—, Prasad, S., O'Dea, J.J. and Osteryoung, J.
Mathematical enhancement of the performance of voltammetric sensors 197
Cho, M.Y., see Wang, J. 7

De Pablo, J.
—, Duro, L., Giménez, J., Havel, J., Torrero, M.E. and Casas, I.
Fluorimetric determination of traces of uranium(VI) in brines and iron(III) oxides using separation on an activated silica gel column 115
Díaz-Cruz, J.M.
—, Esteban, M., Van den Hoop, M.A.G.T. and Van Leeuwen, H.P.
Protolytic control in stripping voltammetric titrations of metal–polyacid complexes 163
Djerboua, F., see Boufenar, R. 31
Dossena, A., see Pramauro, E. 303
Duro, L., see De Pablo, J. 115

Esteban, M., see Díaz-Cruz, J.M. 163

Fernández, P., see Cacho, J. 311
Fernández-Romero, J.M.
—, Luque de Castro, M.D. and Valcárcel, M.
Automation of enzymatic hydrolysis by use of continuous flow methods involving immobilized biocatalysts 275
Ferreira, V., see Cacho, J. 311
Flatt, J.R., see Brooks, D.S. 107
Franek, M.
— and Krivan, V.
Multi-element characterization of silicon nitride powders by instrumental and radiochemical neutron activation analysis 345
Fujinaga, K.
Liquid–liquid extraction of some transition metals with a mixed solvent system 71
Fukushima, M., see Harino, H. 91

García Alonso, J.I., see López García, A. 241
Garcia Mateo, V., see Martínez Calatayud, J. 283
García Pinto, C., see Pérez Pavón, J.L. 291
Giglio, J.J., see Mincey, D.W. 97
Giménez, J., see De Pablo, J. 115
González, A., see Reviejo, A.J. 141
Graves, G.A., see Mincey, D.W. 97

Hamada, Y., see Kamaya, M. 131
Hamon, M., see Cardeal, Z.L. 365
Harino, H.
—, Fukushima, M. and Tanaka, M.
Simultaneous determination of butyltin and phenyltin compounds in the aquatic environment by gas chromatography 91
Havel, J., see De Pablo, J. 115
Hayward, G.
Viscous interaction with oscillating piezoelectric quartz crystals 23
Hsu, C.S.
—, Qian, K. and Chen, Y.C.
An innovative approach to data analysis in hydrocarbon characterization by on-line liquid chromatography–mass spectrometry 79

Iida, C., see Kojima, I. 101
Ishii, E., see Kamaya, M. 131

Jen, J.-F., see Yan, C.-T. 259
Jin, W., see Peng, J. 213

Kamaya, M.
—, Hamada, Y., Yazaki, S., Nagashima, K. and Ishii, E.
Comparative study of barium salts of 2,5-dihalo-3,6-dihydroxy-*p*-benzoquinone as reagents for the spectrophotometric determination of sulphate 131
Kato, A., see Kojima, I. 101
Kikuchi, Y.
—, Suzuki, T. and Sawada, K.
Liquid–liquid extraction of alkaline earth metal ions with a non-ionic surfactant having a poly(oxyethylene) chain (Triton X-100) 65
Kim, C.-J., see Lee, S.-M. 125
Kim, J.-M., see Lee, S.-M. 125
Kodama, S., see Kojima, T. 59
Kojima, I.
—, Kato, A. and Iida, C.
Microwave digestion of biological samples with acid mixture in a closed double PTFE vessel for metal determination by "one-drop" flame atomic absorption spectrometry 101
Kojima, T.
—, Sowa, T., Kodama, S., Sato, M., Shigetomi, Y. and Yamamoto, Y.
Adsorption behaviour and separation of copper(II) ions on cellulose triacetate polymer containing α-hydroxy oxime compounds 59
Krivan, V., see Franek, M. 345
Kwon, H.-S., see Wang, J. 7

Lee, S.-M.
—, Kim, J.-M., Shin, J.-S. and Kim, C.-J.
Compensation of fluorescence quenching by extrapolation of fluorescence intensity at time zero 125
Liu, Y.-M., see Yan, G.-F. 121
López García, A.
—, Blanco González, E., García Alonso, J.I. and Sanz-Medel, A.
Potential of micelle-mediated procedures in the sample preparation steps for the determination of polynuclear aromatic hydrocarbons in waters 241
Luque de Castro, M.D., see Fernández-Romero, J.M. 275

Marchelli, R., see Pramauro, E. 303
Martínez Calatayud, J.
— and Garcia Mateo, V.
Cerium(IV) arsenite as a solid-phase reactor for use in flow-injection analysis. Spectrophotometric determination of promethazine 283
Matysik, F.-M.
—, Nagy, G. and Pungor, E.
Analytical distinction between different catechols by means of reverse differential-pulse voltammetry 177
McCallum, J.J., see Boufenar, R. 31
Meier, H.
— and Tran-Minh, C.
Determination of penicillin-V in standard solution and in fermentation broth by flow-injection analysis using fast-responding enzyme glass electrodes in different detection cells 13
Mekler, V.M.
— and Bystryak, S.M.
Application of *o*-phenylenediamine as a fluorogenic substrate in peroxidase-mediated enzyme-linked immunosorbent assay 359
Mikac, N.
— and Branica, M.
Determination of ionic alkyllead compounds in natural waters by differential-pulse anodic stripping voltammetry 249
Milanko, O.S.
—, Milinković, S.A. and Rajaković, L.V.
Improved methodology for testing and characterization of piezoelectric gas sensors 43
Milinković, S.A., see Milanko, O.S. 43
Mincey, D.W.
—, Williams, R.C., Giglio, J.J., Graves, G.A. and Pacella, A.J.
Temperature controlled microwave oven digestion system 97
Moreno Cordero, B., see Pérez Pavón, J.L. 291

Nagashima, K., see Kamaya, M. 131
Nagy, G., see Matysik, F.-M. 177
Naser, N., see Wang, J. 7

O'Dea, J.J., see Chin, K.Y. 197
Osteryoung, J., see Chin, K.Y. 197

Pacella, A.J., see Mincey, D.W. 97
Pelizzetti, E., see Pramauro, E. 303

Peng, J.
— and Jin, W.
Anodic stripping voltammetric determination of trace lead in micro-samples with a mercury ultramicroelectrode 213
Pérez Pavón, J.L.
—, García Pinto, C., Rodríguez García, E. and Moreno Cordero, B.
Flow-injection determination of thorium and uranium after on-line ion-exchange preconcentration on Dowex 50-X8 291
Pingarrón, J.M., see Reviejo, A.J. 141
Polo, L.M., see Reviejo, A.J. 141
Pradeau, D., see Cardeal, Z.L. 365
Pramauro, E.
—, Prevot, A.B., Pelizzetti, E., Marchelli, R., Dossena, A. and Biancardi, A.
Quantitative removal of uranyl ions from aqueous solutions using micellar-enhanced ultrafiltration 303
Prasad, K.M.M.K.
— and Raheem, S.
Evaluation of colour changes of indicators in the titration of cadmium with EDTA 137
Prasad, S., see Chin, K.Y. 197
Prevot, A.B., see Pramauro, E. 303
Pungor, E., see Matysik, F.-M. 177

Qian, K., see Hsu, C.S. 79

Raheem, S., see Prasad, K.M.M.K. 137
Rajaković, L.V., see Milanko, O.S. 43
Ramamurty, C.K., see Rammohan, V. 149
Rammohan, V.
—, Yadav, R.B., Ramamurty, C.K. and Syamsundar, S.
Determination of the oxygen-to-uranium ratio in uranium dioxide by differential-pulse polarography 149
Rechnitz, G.A., see Wijesuriya, D. 189
Reviejo, A.J.
—, González, A., Pingarrón, J.M. and Polo, L.M.
Determination of organochlorine pesticides in apple samples by differential-pulse polarography in emulsified medium 141
Ríos, A., see Agudo, M. 265
Rodríguez García, E., see Pérez Pavón, J.L. 291
Rosés, M., see Barbosa, J. 229
Rucandio, M.I.
Determination of lanthanides and yttrium in rare earth ores and concentrates by inductively coupled plasma atomic emission spectrometry 333

Sanz-Medel, A., see López García, A. 241
Sato, M., see Kojima, T. 59
Sawada, K., see Kikuchi, Y. 65
Scarano, G.
—, Bramanti, E. and Zirino, A.
Determination of copper complexation in sea water by a ligand competition technique with voltammetric measurement of the labile metal fraction 153
Schiavon, G.
—, Zotti, G., Toniolo, R. and Bontempelli, G.
Solid-state cell for the voltammetric determination of trace electroactive ionic species preconcentrated from high-resistive media at electrodes modified by ion-exchange coatings 221
Setiadji, R., see Wang, J. 205
Shi, G.-R., see Yan, G.-F. 121
Shigetomi, Y., see Kojima, T. 59
Shin, J.-S., see Lee, S.-M. 125
Sowa, T., see Kojima, T. 59
Suzuki, T., see Kikuchi, Y. 65
Syamsundar, S., see Rammohan, V. 149

Tanaka, M., see Harino, H. 91
Tauskela, J.S.
— and Thompson, M.
Non-selective interactions of concanavalin A with phosphatidylcholine small unilamellar vesicles: implications for chemical sensor development 185
Thompson, M., see Tauskela, J.S. 185
Toniolo, R., see Schiavon, G. 221
Torrero, M.E., see De Pablo, J. 115
Tran-Minh, C., see Meier, H. 13

Valcárcel, M., see Agudo, M. 265
Valcárcel, M., see Fernández-Romero, J.M. 275
Van den Hoop, M.A.G.T., see Díaz-Cruz, J.M. 163
Van Leeuwen, H.P., see Díaz-Cruz, J.M. 163

Wang, J.
— and Setiadji, R.
Selective determination of trace uranium by stripping voltammetry following adsorptive accumulation of the uranium–cupferron complex 205
—, Naser, N., Kwon, H.-S. and Cho, M.Y.
Tissue bioelectrode for organic-phase enzymatic assays 7
Wijesuriya, D.
— and Rechnitz, G.A.
Reusable neuronal biosensor for the determination of 3-acetyl pyridine neurotoxin 189
Williams, R.C., see Mincey, D.W. 97
Williams, T.
— and Barnett, N.W.
8-Quinolinol-5-sulfonic acid as a non-selective post-column reagent for fluorimetric detection of trace metals in ion chromatography 297
Winefordner, J.D., see Ali, A.H. 319, 327

Yadav, R.B., see Rammohan, V. 149
Yamada, S.
Fiber-optic multiphoton ionization detection of polycyclic aromatic hydrocarbons 1
Yamamoto, Y., see Kojima, T. 59
Yan, C.-T.
— and Jen, J.-F.
Determination of volatile fatty acids in landfill leachates by gas chromatography with distillation pretreatment 259

Yan, G.-F.
—, Shi, G.-R. and Liu, Y.-M.
Fluorimetric determination of iron with 5-(4-methylphenylazo)-8-aminoquinoline in the presence of surfactants 121
Yazaki, S., see Kamaya, M. 131
Yebra-Biurrun, M.C.
—, Bermejo-Barrera, A. and Bermejo-Barrera, M.P.
Synthesis and characterization of a poly(aminophosphonic acid) chelating resin 53

Zirino, A., see Scarano, G. 153
Zotti, G., see Schiavon, G. 221
